

70000 Degreaser Extra P60

Document version: May 11, 2025

Description

Especially suitable for the removal of heavy industrial soiling such as grease, lubricants, tar, asphalt and bitumen. Easily cleans machine parts and sheet metal. Formulated with powerful emulsifiers for optimal dilution with water. Absorbs about 5 times the volume of contamination (oil and grease). Flash point is approximately 65°C. Includes aromatics. Dosage and use: for manual cleaning use the product preferably undiluted. Let the product penetrate for some while. Then allow to evaporate, wipe with a cloth or brush, or spray with water. For high pressure cleaning and spray washing preferably dilute 1%-2% with water (1:100-1:50) and process at approximately 60°C. Solvent based product.
