

AD02000 Octane Booster

Dokumentversjon: 14. apr. 2024

Beskrivelse

MPM octane booster is developed to boost the octane number by 2-4 points.

Main benefits

- Increases octane number.
- Prevents exhaust valve seat recession.
- Improves fuel economy.
- Improves and enhances the engine and combustion performance.
- Eliminates rough idling and engine hesitation.
- Prevents spark plug fouling.

Application

For all petrol engines with injectors or carburetor running leaded or unleaded fuel. Suitable for use with vehicles fitted with catalytic converters.

Appliance instruction

The contents of one 250 ml bottle will treat 40 to 60 litres of fuel. Pour contents of bottle in the fuel tank preferable before refueling with petrol.
